Serological Pipettes

Dispo Pipette

Dispo Pipette

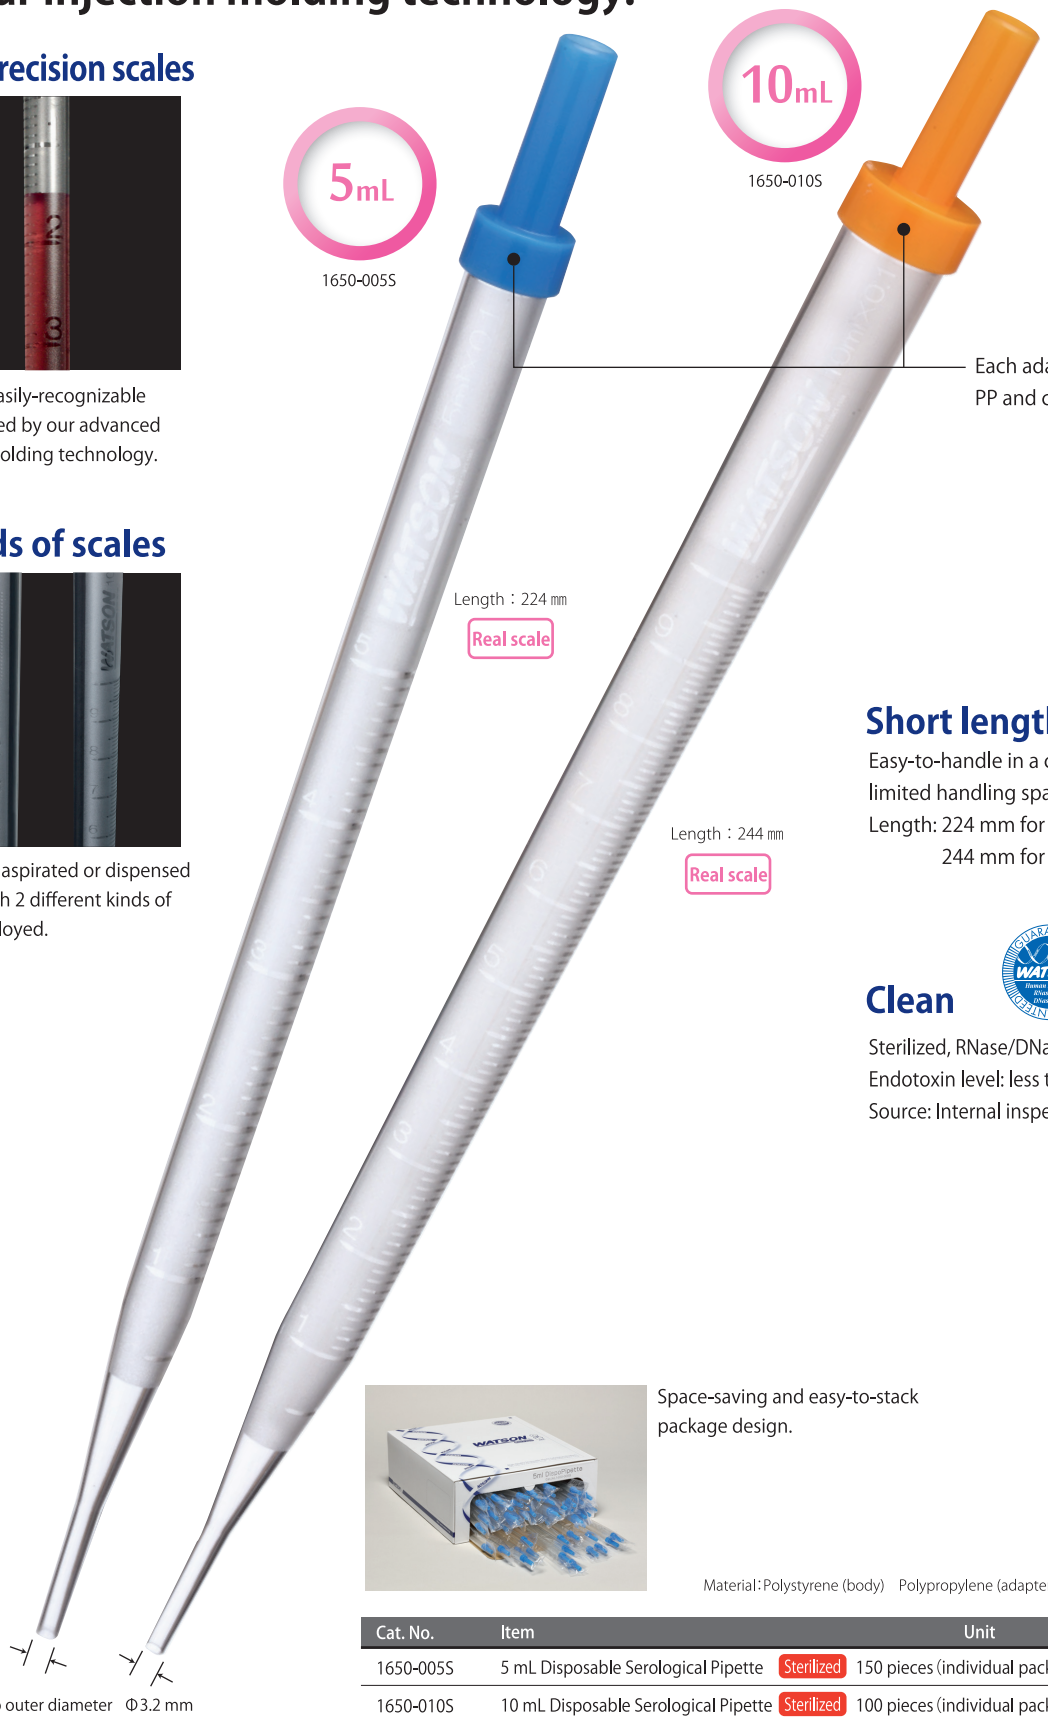
High precision scale realized by our injection molding technology.

High precision scales

Precise & easily-recognizable scale realized by our advanced injection molding technology.

2 kinds of scales

Easy to see aspirated or dispensed volume with 2 different kinds of scales employed.



Short length

Easy-to-handle in a clean bench with limited handling space.
Length: 224 mm for 5 mL and 244 mm for 10 mL.

Clean

Sterilized, RNase/DNase-free
Endotoxin level: less than 0.05 EU/mL
Source: Internal inspection.

Space-saving and easy-to-stack package design.

Sterilized

Material: Polystyrene (body) Polypropylene (adapter) Polyethylene (filter)

Cat. No.	Item		Unit	Case
1650-005S	5 mL Disposable Serological Pipette	Sterilized	150 pieces (individual packaging)	5 units
1650-010S	10 mL Disposable Serological Pipette	Sterilized	100 pieces (individual packaging)	5 units
